

Free Run 3 wheel Mobility Scooter

1. Patented automatic correction balance braking system to provide stable braking when emergency braking.

2. Easily adjust left and right wheel brake tightness simultaneously.

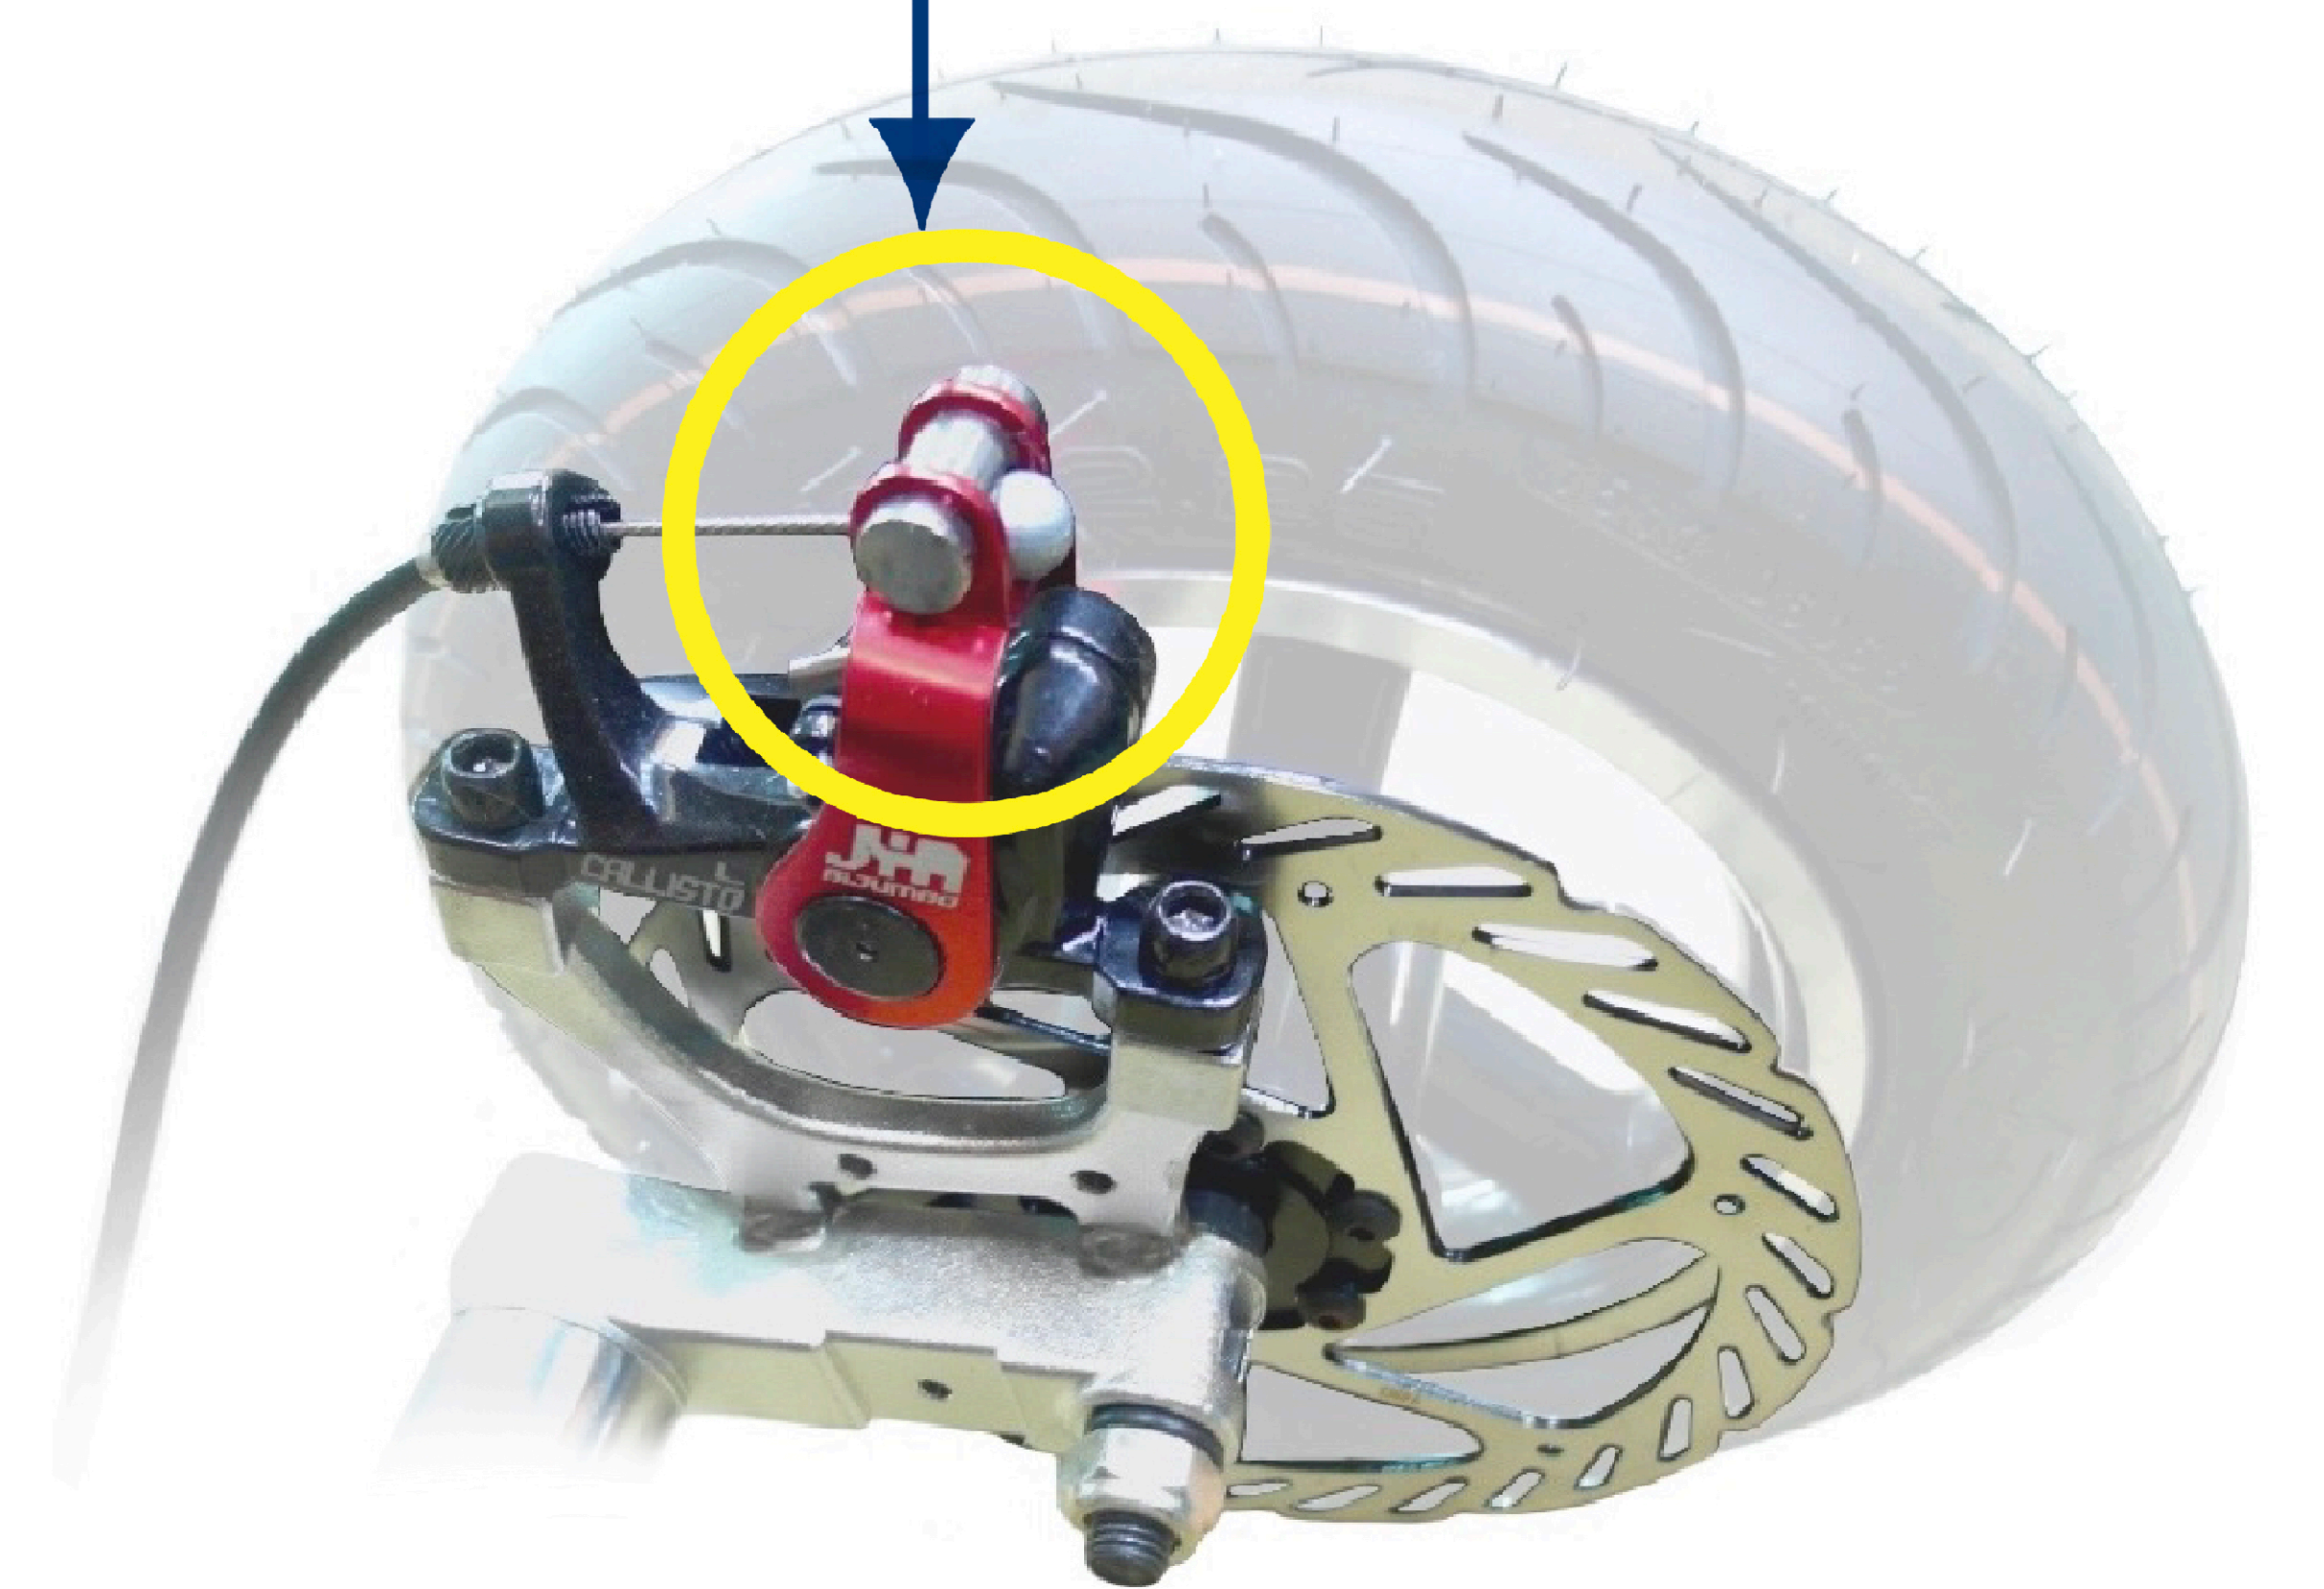

Automatic correction
balance breaking system
自動校正平衡煞車系統

同步調整
煞車鬆緊度

Synchronously adjust
brake tightness

左後輪卡鉗
Left rear wheel calliper

右後輪卡鉗
Right rear wheel calliper

傳統卡鉗左右鬆緊度調整較麻煩
It is hrder to adjust the left and
right tightness of traditional
calipers
